## MY MISSION

- A mission statement defines what line of business a company is in, and why it exists or what purpose it serves. Every company should have a precise statement of purpose that gets people excited about what the company does and motivates them to become part of the organisation.

Goals are a predetermined target that a business or individual plans to achieve in a set period of time. These goals are often split into short-term goals and long-term goals. Business goals can be general and high level, or they can focus on specific measurable actions
